WELCOME TO OUR WORLD

QUALITY | SERVICE | BACK UP

The Fun Stuff

Use colour and texture to transform the ordinary into the extraordinary

The products are available in many different colours to match the style that you want to create, be it Contemporary, Classic, Traditional, Modern, African, Elegant, Urban, Exotic or Sophisticated.

Or perhaps a Bold Accent wall, a Warm, Calm or Cool environment, or a Fun, Trendy or Sassy space – there are no boundaries!

The Serious Stuff

FEATURES & BENEFITS of our Protective & Decorative Specialist Wall Finishes

Developed collectively by the most experienced and innovative team in the textured and specialist coatings industry, PlasterTEX is the greenest range of Wall Finishes in South Africa.

The eco-friendly products are specifically formulated using sustainable raw materials to offer you peace of mind with maximum protection of internal & external walls.

What you can expect from us

- Peace of mind through responsibly sustainable products.
- Competitive pricing.
- We are always available for technical advice and back up throughout the duration of the project and offer a Certificate of Product Quality Guarantee & Life Expectancy.

We have a network of **Professionally Accredited Applicators** that have trained in the application of our products, who in turn guarantee their work.

BENEFITS

- In compliance with world standards of <5g/litre for VOC & free of MEG, APEO & AMMONIA
- Free of Crystalline Silica therefore no concerns about Silicosis
- Tinted with zero VOC colourants with a wide colour range to choose from
- Water based, ready to use, low odour and quick drying
- High build products are effective for hiding minor surface imperfections
- Water resistant, but still allows the substrate to breathe
- UV resistant to harsh southern hemisphere climatic conditions
- Longevity with a life expectancy of at least 10 years or longer

SUPERFINE RENDER

The most subtle of textured swirl pattern.

FINE RENDER, MEDIUM RENDER & MAXI RENDER

May be finished in either a vertical travertine raked or random swirl pattern. The size of the aggregate determines the final finish.

1.0mm Fine, 1.7mm Medium is distinct while the 3.0mm Maxi is very pronounced.

SUEDE RENDER

A rich plush suede finish.

FAIRCOAT RENDER

A stylish granular finish.

CRYSTALCOAT

A combination of tinted plaster and glass crystals play with inspirational light and reflection.

AGGRECOAT

A system whereby exposed aggregates are lightly embedded into a tinted plaster. The aggregate varies in size from FINE, 1.0mm, 1.7mm and 3.2mm and comes in a range of selected colours.

ROLLER AND BRUSH APPLICATIONS

NAVARRO

May be finished in either a stippled roller or brush.

SPRAY APPLICATIONS

TEXTURED SPRAY FINISHES

Textured spray finishes are quick to apply and therefore ideal for fast track projects. Hiding plaster imperfections They are also used for redecoration projects to refresh and enhance the entire facades of a dated building.

DESIGNER RENDERS

.....

Different finishes are possible by utilising various tools and techniques, these are a few options but feel free to be creative!

FOR INTERNAL WALLS

METALLICS

.....

The effects of these metallic products are ideal for decorating interior walls in a classical or modern environment. Sophisticated shades with three dimensional finishes by combining high and lows.

POLISHED STUCCO

.....

Suitable for both traditional and contemporary interior walls. Once set, the plaster is hard as stone, making it a long-lasting product that requires minimal upkeep. It is used to create an elegant, smooth finish with the illusion of depth and texture.
